The Port Sa Calobra mountain refuge is in the County of Escorca, right on the coast, close to the mouth of the Torrent de Pareis, one of the few ways down to the sea from the emblematic Serra de Tramuntana. It is located in an old building that was renovated in the 90s and has served various municipal uses. In 2014, a part of this unused building was authorised as the only place to stay in this privileged enclave of the island of Mallorca.

Description and facilities

The Port Sa Calobra refuge has a capacity for ten people and basic facilities and services, such as running water and electricity. It is divided into a bedroom with five double bunks with mattresses, a multipurpose room equipped with kitchen, which includes a small cooker, a fridge and a microwave; rectangular table, benches and a fireplace; a bathroom comprising two washbasins, two showers and two toilets as well as a wide stone-paved terrace on the seafront, from which you can enjoy the incomparable crystal clear waters of the northern coast of Mallorca. Refuge users also have the use of a parking area for up to four vehicles.

Complementary activities

Port Sa Calobra, where the refuge is located, is the point of arrival of one of the most emblematic excursions of the Sierra de Tramuntana, the Torrent de Pareis gorge. The mouth of the gorge is just a few meters away, and is an impressive natural monument culminating in a beautiful sandy and pebbly cove, framed by a pair of towering cliffs. It is a privileged place to enjoy the marvellous landscapes and rugged cliffs of this area of the mountain range, from which it is also possible to take various walking routes and enjoy the wonders of nature, such as the route to the shrine of St. Lawrence (between Cala Tuent and Sa Calobra) and access to the Tower of Cala Tuent. A point of interest is a cultural attraction on the first Sunday of July, only 500 meters from the refuge, when there is a traditional Torrent de Pareis concert in the natural theatre formed by the high mountain walls surrounding the mouth of this famous torrent.

Localisation and access

The refuge is located on the ground floor of the multipurpose building at the Port Sa Calobra in the municipality of Escorca. It can be reached by car or bus, using the road to Sa Calobra (MA 2141); and on foot, via the Torrent de Pareis and Sa Costera routes. There is also sea access by the boats leaving daily from the Port of Sóller, or by private boat (Coordinates X 482843_Y 4,411,250).
